Waukesha Engineering Preparatory Academy

Mission

Our mission is to provide a dynamic, project-based educational environment for excellence that is focused on problem-solving, critical thinking and real-world application learning needed for college and career success.

About Us

Principal: Becky Newcomer
Administrator: Maria D'Amato-Kuche
Grades: 9 - 12
Number of Students: 220

Founded in 2007, the Waukesha Engineering Preparatory Academy (WEPA) is a free, public charter school within the School District of Waukesha. WEPA uses a robust curriculum created by Project Lead the Way, the nation's leading provider of science, technology, engineering and math programs.

Programs

We bring learning to life by partnering with local businesses to provide students with real projects, exposure to many career pathways within engineering, and Youth Apprentice and Co-op internship programs. Seniors have the opportunity to work part time for one of the school's business partners while earning credits.

WEPA is located on the campus of South High school and offers access to 21 advanced placement classes as well as clubs, sports teams, art, band and business classes. Our specialized curriculum includes Project Lead the Way courses.
