

2ND GRADE ROCKSTAR UPDATES

We hope everyone had a wonderful break and enjoyed time together with their families!

WHAT WE ARE LEARNING THIS MONTH

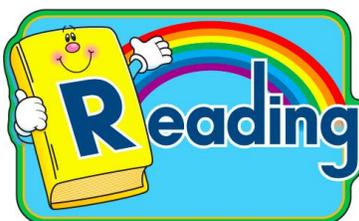

[Earth's Systems and Changes](#)

[Measurement – Time & Money](#)

[Investigations](#)

Miscellaneous

- **MAP Testing**

The School District of Waukesha has students participate in MAP (Measures of Academic Progress) testing. The MAP tests allow all students to demonstrate their knowledge, ability, and growth in the areas of reading and math. The second graders will be MAP testing on Wednesday, January 20th and Thursday, January 28th. We will be available for student questions and help in navigating the assessment.

- **Holiday Party**

Our holiday party was a success thanks to your donations and the many volunteers we had to help prepare the materials and help with the activity and clean up afterward. Our class had a wonderful time celebrating together! Take a look at our [pictures](#) from the day!

- **Valentine's Day**

Valentine's Day is approaching and we can't wait to celebrate with the students! [Here](#) is a class list for each homeroom (2M-17 students, 2B-16 students). Each student can bring in a decorated box to hold their valentines. All students should bring their box and valentines to school by Wednesday, February 10th so they have time to "quarantine" at school prior to being passed out.

- **Guidance Lesson with Amanda Desua**

This month, Amanda Desua (District Guidance Counselor) visits to share a lesson addressing anger management and developing coping skills. Students learned to identify different emotions and strategies to help them manage their emotions. Coping skills help improve mental well-being and strengthen our abilities to handle difficult situations. The school counselor provides an activity done in class to further learning. Mrs. Desua will be visiting our classroom next week!
