- **Library Books Due (Friday, May 25)**

Our class's last visit to the school library will be on Monday, 5/13. All books are due to the library by Friday, 5/24.

- **Teacher Appreciation Week**

We want to extend a sincere expression of gratitude for the kindness this Teacher Appreciation Week. The PTA, students, and families made it a special week for us. Thank you!

- **PTA Game Night (Friday, 5/10)**

Come and join in a night of fun at Meadowbrook's largest fundraiser for the year... Game Night! Enjoy good food, fun games, and awesome auction items to choose from!

- **MAP Testing**

We will be MAP testing in Reading on May 14 and will be doing the MAP math test on May 16. Please encourage your child to do his/her best on MAP testing. The MAP test is taken on your child's district iPad. Please help your child to make sure their iPad is charged and brought to school on MAP testing days. You can also send your child with an extra snack as we will provide a snack time in the morning and afternoon on the testing days.

- **Our Hatchlings Have Headed Home**

Our chicks have grown quite a bit and it was time to head home to the farm. This learning experience was a pretty wonderful one for our kiddos this year! We delivered the chicks to their new home at Godsell Farm. We had a lot of sad faces in our second grade classroom and even some begging to keep just a few! Please take a look at the [pictures](#) we took during this experience with the students. We have recently added some pictures for you to enjoy.

- **Guidance Lesson with Amanda Desua (Our District Guidance Counselor)**

This month during social/emotional learning lessons, students will work on career planning and year-end review. The school counselor will provide learning activities within the lesson that helped students recognize their learning style and unique aspects of their personalities.
