

Kindergarten News

May 2021

Reader's Workshop: This month we focused on digraphs, vowel sounds, and fiction and nonfiction texts. We are so proud of all the progress that the kids have made in reading this school year!

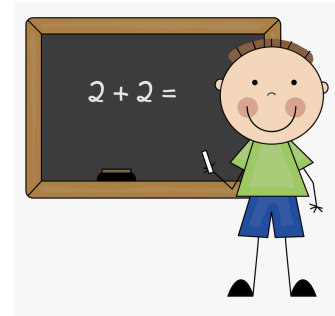

Book in the Bag will be ending the week of May 24-28. Please have them returned by the 28th.

Math:

Skills we are continuing working on:

- Adding and subtracting numbers to ten using various strategies
- Adding and subtracting *fluently* within five
- Solving story problems
- Understanding teen numbers in base ten

Writer's Workshop:

We just finished up writing our animal reports. The students conducted research using books and technology. They took notes and then compiled their data into reports. Look for the finished reports to be coming home within the next few weeks!

Assessments:

Students will be participating in the MAPS assessment in math, the PALS assessment for literacy and we will conduct running records to determine end of the year reading levels!
