

Lowell School Supply Lists 2020-2021

We understand that many of you are working to prepare for the start of the 20-21 school year. There are many variables that are still unknown, and we did our best to prepare school supply lists prioritizing both safety and the multiple learning scenarios that are currently being discussed as we plan for fall. We also fully understand the financial hardship that this pandemic has created for our community, and that discretionary income to purchase these supplies might not be available. To that end, please know that we will always work to ensure that your child has what he/she needs to be successful at school. If you need assistance in getting supplies for your child, please don't hesitate to reach out to our student services department. We are here to support you.

Kelly Ohme (School Social Worker) 262-970-1533 or kohme@waukesha.k12.wi.us
 Heather McCollum (School Psychologist) 262-970-3630 or hmccollum@waukesha.k12.wi.us

Important Note: All students in grades 2 - 5 will need to purchase a binder similar or exact to any of the binders linked below:

[Binder Sample A](#) or [Sample B](#) (Amazon)

[Binder Sample C](#) (Walmart) - three inch preferred

[Binder Sample D](#) (Walmart) - *An additional pencil pouch will need to be purchased with this option. This binder is less durable, so a replacement binder may be needed depending on wear and tear.

[Binder Sample E](#) (Office Depot)

This binder will support your child's development of organizational skills he/she will need to be successful at Lowell. This binder is intended to last two years; however, wear and tear is dependent on how students take care of it both in and out of school. This binder is also aligned to Lowell's implementation of AVID (Advancement via Individual Determination), which is a system that supports the development of college and career readiness in all learners through a focus on writing, reading, inquiry, organization, and collaboration. One of the major components of AVID Elementary is organization; organization of time, materials, and thought. "A student's ability to self-monitor and self-organize correlates strongly with college and career readiness. Even for the most talented students, however, proficiency in these abilities rarely comes naturally" (AVID Center). Through the implementation of an organized binder system, our goal is to teach all of our learners to how to organize their work, their resources, and their learning tools to maximize their success in school. If your child has a binder from last year that is still in good condition, they may use the same binder more than one year in a row.

K4	K5	1st	2nd
